Please know that this Time Table can be flexible depending on the situation and how you feel about the subjects. We can change and modify accordingly. So, don't worry. What is important is that these classes are an opportunity for you to get an early start to get cracking on your Class 10 syllabus and also to get all your doubt cleared. Our teachers will be flexible and they will try to clarify your doubts and strengthen the concepts. I have asked the teachers to use the labs and other technological aids to enhance your understanding. I believe it will be a good start for those who have signed up for the classes.

Please bring your tiffin and some water to keep you healthy and hydrated.

God bless you all.

Br. Solomon
